

# DYLAN COMMUNAL TABLE COLLECTION

## ABOUT THIS COLLECTION

The Dylan Collection consists of communal tables with a metal corner bracket that adds strength and optional color.

## STANDARD FEATURES

- Available in solid wood or laminate
- Brazed, coped, and sanded welds
- Black height adjustable, non-skid glide
- Power integration available

## PERSONALIZATION OPTIONS

• The table to the right explains all of the available options for the Dylan Communal Table Collection.

\*Electrical and power integration includes two electrical outlets and two USB ports.

## OPTIONS

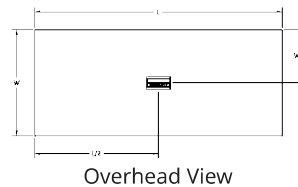

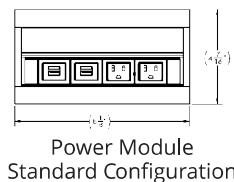

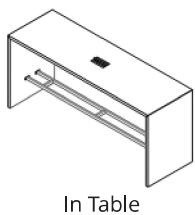

OPTIONS	PAGE	ADD TO LIST PRICE
Electrical and Power Integration*	-	\$700/Module
Light Distressing on Wood Tops	144	Call for Quote
Heavy Distressing on Wood Tops	144	Call for Quote

## POWER & ELECTRICAL PLANNING

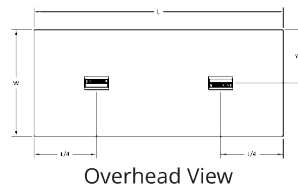

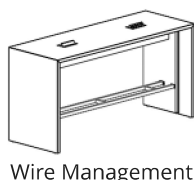

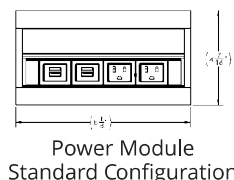

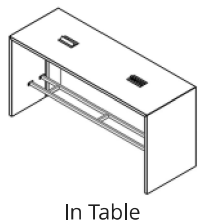

Power and electrical can be specified on either wood or laminate Dylan Tables. One or two power modules may be used per table. Each module consists of two power and two USB ports finished in a Silver Anodized Aluminum with a white trim. Each module also includes a wire management system for a three-prong cord for 120 Volts at 120" long. Wire management is designed to neatly encase cords and is securely placed on the inside of one leg. For two power units, there will be two separate cords and encasings, each placed securely on the inside of each leg.

There are two standard options for module placement. For one module, the module will be placed in the center of table top. For two modules, modules will be placed at both ends of the table top, equal distance from the edge of the table for a symmetrical effect. Please note, requests for alternate placement of modules will extend lead times and may not be honored due to design limitations. For all power and integration, please call for quote.

### OPTION 1

### OPTION 2

Please note, power modules on Option 2 are placed in opposite directions.
