# Graded-In Fabric Program

2024

### Graded-In Pricing

This program is for ease of pricing fabrics. Fabrics will need to be evaluated based on the product being specified. Please contact your Account Manager for more details.

**Phone:** (616) 774-0561

**Toll Free:** 1 (866) 453-4748

### Upholstery

Prices are based on a solid color 54" wide upholstery. Any upholstery with 3" or greater repeat, length or width, which requires pattern matching, add 10% to overall list price. Thread color will be chosen by factory to match the upholstery as closely as possible, unless otherwise specified.

### Customer's Own Material (C.O.M.) and Customer's Own Leather (C.O.L.)

Please consult the factory prior to placing your C.O.M. or C.O.L. order. We may be able to supply materials at a lower cost due to our volume discounts with the textile mills. All C.O.M. materials should be sent in rolls only, folding can cause adverse and irreversible deformations to some materials, especially leather.

### Fabric Approval Process:

Fabrics for Harper and Full Hurdle must be tested and approved by Grand Rapids Chair prior to production to ensure it meets our high standards for quality. There is no charge for the fabric testing process. A sample swatch must be supplied with the order along with the name of the supplying textile company and a description of the material (pattern name, color, and any accompanying numerical description). We cannot accept responsibility for the costs incurred for replacement material if the mill sends the incorrect fabric.

### For Fabric Approval, Send To:

Grand Rapids Chair Co  
c/o Fabric Approval & Account Management Team  
Attn: COM Testing Department  
1250 84th Street SW  
Byron Center, MI 49315  
please tag with your purchase order/project ID

All C.O.M. yardage requirements in this price lists are based on 54" wide roll. Yardage is approximate. Add 10% to the yardage requirements if striped or patterned materials are specified, if pattern requires matching, or if width of material is less than 54" wide. For striped, patterned or unique designs, directions on upholstery application must be provided. If no directions are stated on the order or in a subsequent "confirmed and acknowledged" document, we will upholster the product in what we deem to be the most appropriate manner. We assume no responsibility thereafter.

Grand Rapids Chair Company assumes no liability as to the flame retardant qualities of a C.O.M.

For orders with C.O.L., add 10% to the list price of C.O.M. in our price list. We also advise adding 25% to the yardage requirements if specifying leather. Irregularities in grain, natural marks or variations in color are to be expected and are normal characteristics of natural luxurious leather, making each piece unique.

Acknowledged ship dates are dependent on time receipt of COM or COL. To hold an acknowledged ship date, we must receive the COM/COL within 3 weeks of the scheduled ship date. Delays in receiving the material will result in the rescheduling of production. We maintain the right to refuse the use of any customer-supplied material or leather that is not suitable due to pattern, stretch, weight or workability.

All C.O.M. must be shipped prepaid and clearly marked with your company name and purchase order number.

### California Technical Bulletin 133

Chairs can be constructed to meet California Technical Bulletin 133, call for quote. Testing, sampling and freight charges will apply as required.

**Fabric Direction**

For upholstered products, fabric application direction must be specified.

Fabric directionality is determined by how the fabric comes off the roll. It is NOT determined by the way the pattern looks on the product. For example, horizontal stripes do not mean the fabric was applied warp horizontal.

Textile companies will note fabric direction on their fabric swatch samples and it will vary by product. We encourage you to contact the textile vendor for clarification, when in doubt.

We recommend striped fabric be applied in vertical orientation – where stripes are running up and down.

**Horizontal / Railroaded / Across the Roll**

**Vertical / Off the Roll / Down the Roll / Woven Way**

This means fabric is cut across the roll and selvage is on top and bottom.

Fabric is cut in the same way it is woven and selvage is on the left and right sides.

Anzea was founded in 1990 by business partners Mitzi Mills and Bruce Doeren in Fort Worth, Texas. Since the beginning Anzea has focused on contract upholstery textiles offering the marketplace the option of leading-edge colors, bold designs and high performance with a personable customer experience found only in Texas. Anzea offers a brilliant mix of woven and coated fabrics fit for the most demanding applications. Our exclusive woven fabrics range in composition from highly innovative manufactured fibers to the richest natural fibers.

C O N T R A C T

With roots dating to 1783, Camira believes that you “only ever get out what you put in.” Camira puts their heart and soul into making fabrics, but with a real sense of responsibility for the bigger picture — from the raw materials they use to the manufacturing processes, and with the involvement of many different people from start to finish. From design to manufacturing to finishing and dispatching, Camira is fully integrated every step of the way.

# Carnegie

Founded on the principle that great design goes deeper than aesthetics, Carnegie has championed responsible innovation for over 70 years, developing durable and healthy alternatives to PVC. The nation's only B-Corp certified textile manufacturer and forever PVC-free company, we lead the industry with our authentic commitment to sustainability, using education and advocacy in service of our mission: galvanize the A&D community to make business a force for good.

C.F. Stinson has been working hard keeping customers satisfied for three generations. They are a Midwestern company with origins in textile distribution to architects, designers and furniture manufacturers. Since 1952, C.F. Stinson has created innovative textiles for clients in the hospitality, healthcare, education and corporate markets. They consistently exceed design, performance, service and sustainability standards, and have been awarded for their work through industry recognition. Stinson's fabrics have evolved over the past six decades thanks to research, great design and technology with the goal of creating interesting and innovative textiles that work.

# maharam

Founded in 1902, Maharam is North America's leading creator of textiles for commercial and residential interiors. Committed to a rigorous and holistic approach to design, Maharam embraces a range of disciplines, from product, graphic, and digital to art, and architecture. Maharam textiles are included in the permanent collections of the Art Institute of Chicago, the Museum of Modern Art, and the Stedelijk Museum, among others. Maharam is the recipient of the Cooper Hewitt, Smithsonian Design Museum Design Patron Award for its longstanding support of design and cultural initiatives.

At Mayer Fabrics exists for one thing only, and that's to bring you exceptional, stylish textiles at a great value. After more than a century in the industry, Mayer has learned to bridge the gaps between design, durability, sustainability, and affordability. The result? Consistently innovative, effective contract textile solutions that work for their customers and their unique needs. Mayer relies on up-to-the-minute technology to keep their designs fresh, inspired, and dynamic. While their product line is constantly evolving and changing, Mayer's commitment to customers remains unchanged: create exceptional products.

\* indicates an outdoor fabric

Ultrafabrics creates materials for tomorrow by uniting Japanese craftsmanship and purposeful innovation.

Based in state-of-the-art engineering, they design intelligent, next-generation materials that combine high-performing functionality and comfort in an array of design styles that speak to the senses. Focused on unlimited creativity, lasting durability and greener solutions, Ultrafabrics is always innovating and evolving — with people and planet in mind.
