Carbon Reduction & Environmental Impact Performance

All 3 of Grand Rapids factories have efforts in place to track and reduce carbon emissions.

The Wood Seating and Wood Tables products are made from 100% sustainably harvested wood and the Wood Tables with Laminate Top (3MM Edge) product has 1% pre-consumer recycled materials, 4% post-consumer materials, and 50% sustainably harvested wood. These 3 product families are FSC certified.

Grand Rapids Chair Company products are reusable and recyclable, reducing carbon by avoiding waste in landfills and serving as material for other applications.
